The Swindle Rejected-9,512 Majority ! The Board of Commissioners constituted b the English Kansas Bill, have issued a proclamation declaring the proposition to accept the Lecompton Slave Constitution rejected by 9,512 majority. The whole vote was 13,088. The returns of a few precincts were thrown out on account of informalities, but no fraudulent returns were made. The election passed off quietly, and the large vote, as well as the triumphant majority, indicate the fixed determination felt by the free settlers throughout Kansas to bury the last swindle too deep for a resur-

The Buchanan African Democracy, North and South, must be willing by this time to write down the people of Kansas as the most stiff-necked under the sun. The Utah Army Contracts

The Secretary of War has called a Court of inquiry at Fort Leavenworth, to investigate the duct of Capt. Van Vliet, Quarter Master of that post, for alleged disobedience of orders in the matter of mule purchases. The charge is a most extraordinary one to bring against a Gov roment officer, for it virtually is that Capt. Van Vliet has been too honest! The St. Louis Demscraf says the issue between the Secretary of War and the Quarter Master is that the latter has been too exacting in his dealings with the ontractors; that he has in several cases rejected mules which they allege came up to the specifications of the Department, and that the price he set on those which he accepted was below their market value! The Secretary, whose land speculations are noted Ploydisms, of course sides with the favorite but greatly abused Democratic contractors, whose net profits were only some twenty or thirty dollars a head on cac oule accepted. The average price allowed for mules for the summer expedition was not less than \$170,00. Messrs. Caldwell & Geary of Texas offered to supply the Government with all the nules required, and deliver them at Fort Leavenworth, at from \$80 to \$100 per head.

Senator Genus, of Missouri, in a recent letter the Illinois canvass, said:

You have then seen proper to designate me as the standard bearer of the opposition to a most perfidious administration, in the coming conflict. My record is well-known to you all I have heretofore during my whole political carreer, both in Congress and in my district, opposed the extension of slavery to territories now free. I am no novice in politics. It is now ahout 30 years since I commenced my public career; thirty years this month since I left the humble roof of my parents on the banks of the Minmi, and entered into pelitics. Some may doubt this statement, because it is said I have rather a youthful appearance.
